Education

Farook College

Bachelor of Science in Computer Science

September 2022 – March 2025

Calicut, Kerala

Relevant Coursework

- Data Structures
- Database Management
- Internet Technology
- Computer Architecture
- OOP
- Artificial Intelligence
- Systems Programming

Experience

Futura Labs

May 2025 – January 2026

Python/Django Intern

Calicut, Kerala

- Developed full-stack web applications, architecting a seamless integration between a dynamic React frontend and a robust Python/Django backend.
- Engineered RESTful APIs using Django Rest Framework (DRF) to handle secure authentication, data serialization, and efficient communication between client and server.
- Built interactive Single Page Applications (SPAs) using React, utilizing hooks, functional components, and state management to ensure a responsive user experience.
- Designed scalable database models and implemented server-side logic, optimizing data retrieval and storage processes within a Model-View-Template (MVT) architecture.

Projects

SubTracker | Python, Django, TailwindCSS, Docker, Celery, Redis, PostgreSQL

January 2026

- Built a full-stack SaaS application using Django and PostgreSQL to track recurring subscriptions, featuring secure user authentication and data management.
- Engineered an asynchronous task queue using Celery and Redis to automate background email alerts, notifying users 3 days before billing due dates.
- Designed an interactive analytics dashboard using TailwindCSS and Chart.js, implementing dynamic doughnut charts to visualize monthly spending breakdowns.
- Containerized the application, database, and worker services using Docker, establishing a modular microservices architecture for consistent deployment.

Technical Skills

Languages: Python, Java, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Git, Github, Cursor, Docker

Technologies/Frameworks: Django, Django REST Framework (DRF), React, Celery, Tailwind CSS, Bootstrap, Shadcn UI

Database: SQLite, MySQL, PostgreSQL

Leadership / Extracurricular

Futura AI Hackathon

2025

Futura Labs

- Awarded 1st Place at the Futura Labs Hackathon for developing an AI-powered assistive application designed to enhance accessibility and cognitive focus for individuals with ADHD and disabilities.
